OUR INFRASTRUCTURE

We have set up a state-of-the-art infrastructure facility for streamlined execution of all our business activities. Our production unit is installed with advanced machines and equipment that enables us in meeting the bulk requirements of our clients within the mutually decided time. Further, we have capacious warehouse that is divided into various segments that helps us in proper storage and retrieval of goods. Furthermore, for timely deliveries we have linked our warehouse to different modes of transportation.

For trouble-free and smooth working of all our business tasks we have established the following mentioned units:

- Manufacturing unit
- Sales and marketing department
- Quality testing unit
- Warehousing unit

OUR TEAM

We are blessed with a team of diligent professionals who work in sync with one another to carry out all our business activities in an effective manner. These professionals hold immense expertise in their respective fields and are highly qualified. With in-depth knowledge and rich experience, these professionals constantly work towards bringing out new ways of production and innovation to the existing product-line. We have appointed qualified quality analysts who check our manufactured range rigorously to ensure their flawlessness.

Our team comprises of:

- Procuring agents
- Production experts
- Quality analyzers
- Skilled and unskilled labours
- Warehousing personnel

VENDOR BASE

With the help of our reliable vendors and professional team, we are able to deliver the offered range to our clients in different specifications as per their requirements. Our procuring agents select the vendors on the basis of their market reputation, industry experience, manufacturing techniques, financial conditions and product quality. Our trusted vendors manufacture these products by utilizing of high-end technology and quality tested raw material in compliance with universally accepted standards. We have maintained good relations with the vendors to help us meet the urgent requirements of customers in a stipulated time frame.

OUR MISSION

"SAHARA ROOFING TECHNO SOLUTION will achieve profitable growth as a problem solver, solutions provider of quality products and services to our customers as an industry leader."

Principles:

We strive to be the best qualities and technologies in our industry. We care about our client's time and money. We do our absolute best to honour our words and client faith on us. We strive to always act with integrity and commitments.

OUR QUALITY ASSURANCE

Quality is our prime concern. We are able to maintain high quality standards through our committed personnel and sound infrastructure. We ensure that finest quality material is used for our products. For ensure the quality of each material, we are providing Materials Test Certificate along with supply. Our team of experts maintain a vigil on the quality of the products. Every single piece is attached with test certificates and reports. We are continually improving our quality to serve our clients better.

Quality Objectives:

We consider three elements to be essential for the overall quality of the company services:

- Independence & Objectivity.
- Technical & Scientific Quality.
- Practical Benefits to Clients.

Our Excellence:

Quality is our prime aim. We are able to maintain high quality standards through our committed personnel and sound infrastructure. We ensure that finest quality material is used for our products. For ensure the quality of each material, we are providing Materials Test Certificate along with supply. Our teams of experts maintain a vigil on the quality of the products. Every single piece is attached with test certificates and reports. We are continually improving our quality to serve our clients better.

Quality Control:

We exercise stringent quality control measures for ensuring the accurate dimensions and mechanical properties of our products. Our quality assurance system assures each product to pass through following processes and quality systems:

- Certification and Supplementary Test
- Finishing and Marketing.
- Material Control System
- Machining and Dimensional Control
- Process Control System

Quality Assurance:

The quality assurance system is guided by principles that support our unique working culture which incorporates respect, self-management, open communication and creativity.

Our Quality Standards:

The bitterness of poor quality remains long after low pricing is forgotten. So, we follow strong measure of quality checking. Understanding Customers requirement and ensuring to supply as per these requirements is realized with the help of Quality Assurance and Quality Control at SAHARA ROOFING TECHNO SOLUTION. Across the entire business chain of supplies, operations and marketing appropriate quality assurance systems are in place to ensure correctness at each step of the cycle. In our philosophy, quality is not only the durability and defect free nature of product but its utility and applicability to satisfy the sole purpose for which it was bought. Thus, we are committed to produce products, which can satisfy different requirements and purposes. We have adopted stringent quality control measures to ensure superior quality and zero defects' products. Quality is checked at different stages of production and supply and the raw material we use is sourced only from reliable and established vendors

We are backed by the below enlisted professionals:

- Managers
- Procuring agents
- Marketing and Sales Executives
- Warehousing and Packaging Personal
- Administrative

WAREHOUSE AND PACKAGING

As a stockiest, it is necessary for us to have a capacious facility where all storage and packaging activities can be carried out effectively. In this regard, we have established a unit where the storekeepers unpack the range delivered by the vendors and send the products for quality testing purposes.

Afterwards, they repack the products in quality packaging material and store the consignments according to the date of delivery to make sure that retrieval is as easy as possible. The tremendous capacity as well as strategic location allows us to store bulk quantities with ease and dispatch the same in a timely manner.

WHY US?

We are a popular service provider engaged in offering a broad array of fabrication and roofing services for our clients. Offered services are the best solution for our clients at budget-friendly prices. With a team of experts, we have own R & D centre to provide guidance and inputs required. Our services are highly appreciated by the clients for their accurate solution.

Following are the reasons behind our success:

- Easy payment modes
- Quality tested products
- On-time delivery of goods
- State-of-the-art infrastructure
- Customer focused approaches
- Affordable rates

CLIENT SATISFACTION

Being a client centric company, each business task is performed to cater complete fulfilment of our appreciated patrons. We believe in offering perfect product line which is free from any flaw and can completely fulfil the precise necessities of our honoured patrons. Our products find its usage in various areas for precise purposes. Our products are widely required for its sturdy nature. We have an extensive clientele base that prefers our products for industry-leading rates as well as appropriate delivery of shipments.

CLIENTS / CUSTOMERS

Our Valuable Clients include :

- **Uttam Galva Steel Ltd**
- **JSW MI Steel Ltd, Pune**
- **Frontline Roll Form Pvt Ltd**
- **Bajaj Electricals Ltd, Mahape Mumbai**
- **Hitech Engineering, Pune**
- **Sipta Coated Steel Division, Nanded**

Explore our categories

A. Pipeline Fabrication

Providing you the best range of MS Pipe Line Fabrication Service, Pipeline Erection Service, Pipeline Fabrication Service and Firefighting Pipeline Fabrication with effective & timely delivery.

1. MS Pipe Line Fabrication Service

Rs 85 / inch-meter

Minimum Order Quantity: **500 inch-meter**

Moving on deep knowledge & industrial experience, we are offering a very effective solution for **MS Pipeline Fabrication Service**. We procure the best quality tools from our reliable vendors' to offer optimum performance at varied industrial site. Our provided fabrication services are appreciated in the market for their quality attributes like client centric. In addition to this, customers can avail these fabrication services from us at market leading prices.

2. Pipeline Erection Service

Rs 85 / inch-meter

We are actively committed towards offering a wide spectrum of **Pipeline Erection Service**. Our proficient professionals use cutting edge tools and technology to offer these erection services within predefined time frame. Moreover, provided erection services are highly acknowledged in the market owing to their different quality attributes. Apart from this, offered erection services are available as per the requirements of our clients.

3. Pipeline Fabrication Service

For our esteemed clients, we are offering an enormous range of Pipeline Fabrication Service that are used in construction of machines and structures from various raw materials. The provided services are rendered in line with the industry standards by our proficient professionals. Moreover, our offered services are widely appreciated in the market for its promptness and reliability. In addition to this, customers can avail these services from us at industry leading prices.

4. Firefighting Pipeline Fabrication

Minimum Order Quantity: **500 inch-metre**

For our esteemed clients, we are offering an enormous range of Firefighting Pipeline Fabrication Service that are used in construction of machines and structures from various raw materials. The provided services are rendered in line with the industry standards by our proficient professionals

B. Fabrication Service

We are a leading service provider for Fabrication Service.

1. MS Storage Rack Fabrication Service

We are one of the reputed organization engaged in providing high quality MS Storage Rack Fabrication. These MS Racks are good demand in the market due to high quality and durability. These products are available in market at competitive rates.

Features:

- Reasonable Prices
- Durability

2. Rack Fabrication Service

C. Steel Plant Maintenance Service

We are a leading service provider for Steel Plant Maintenance Service.

1. Steel Plant Maintenance Service

With an aim to meet the expectations of our prestigious patrons, we are engaged in offering reliable Steel Plant Maintenance Service. In adherence with industry norms, our skilled professionals use ultra-modern tools and technology to execute these services smoothly. The provided services are praised in the market for their features like client centric approach and reliability. Moreover, these services are rendered at nominal prices.

2. Steel Plant Maintenance Service

With immense expertise and knowledge in this domain, we have come up with a best-in-class Steel Plant Maintenance Service. The provided service is rendered in varied industries the suits the client requirements and needs. Moreover, our adroit professionals offer this service by using progressive machines and technology in line with industry norms. In addition to this, customers can avail this service from us at market leading prices.

D. Gate Fabrication Service

We are the Manufacturer of Decorative Gate.

1. SS Gate Fabrication

We have marked a distinct and dynamic position in the market by offering a superior quality SS Gate Fabrication. Our adroit professional uses the latest tools and techniques to offer this fabrication service. The offered fabrication service is highly admired among our clients due to its quality attributes such as reliability and high effectiveness.

2. MS Gate Fabrication

Leveraging our vast industrial experience in this field, we are committed to offering a wide spectrum of MS Gate Fabrication at affordable rates.

Features:

- Fine finish
- Attractive pattern
- Crack proof
- Low maintenance
- Various design
- Easily usable

E. Tank Fabrication Service

1. MS Storage Tank Fabrication

Minimum Order Quantity: **50 Ton**

We are one of the best organizations in the market, involved in offering a wide collection of **MS Storage Tank Fabrication** to the customers at reasonable rates.

Features:

Light-weight

- Low maintenance
- Robust construction
- Crack resistance
- Alluring pattern
- Superior finish

- Coordinate with all labour contractors to achieve continuous progress at site as per schedule.
- Follow up with Project manager for pending decisions / drawings/of Binding wire Product.
- Communicate management decisions and information to Site subordinate staff.
- Ensuring the workers safety at site and usage of safety equipment's.
- Implementation and follow up and regular monitoring of implemented ISO 9001 system at site.
- Co-ordination with the Quality Person for Quality related issues.
- Coordinating Row Material Accountability at Plant

Authorities

- Initiating the corrective and preventive actions as needed on client and consultants.
- Decision making on during any emergencies at Company site

In charge Marketing

- Managing & motivating the sales force towards achievement of target.
- Preparation of Sales plan.
- Annual sales forecast.
- Monthly sales forecast
- Implementation of sales plan

Authorities

- 1 Approval of documents as per Master list of Quality System Document.
- Authorized to decide corrective & preventive action.
- Authorized to obtain concessional acceptance for non - conforming product from the customer

Admin & AccountResponsibility

- Responsible for tendering activity.
- Customer order review.
- Handling and coordinating customers
- Identification of resources, as applicable.
- Document & Data control system pertaining to his department.
- Maintain all documents related to quality system.
- Coordinator for Management reviews.
- Promoting awareness of customer requirements throughout the Organization.
- Compliance & effectiveness of the training system.

- Suitable working environment (cleanliness, ventilation, lighting, safety etc.).
- Record maintaining for Sales Register, Rent Register, Sale Files, and Stationery and office equipment's.
- Archiving and record keeping of old files.
- Payroll Monthly: Salary -To release monthly salary of the employees as per policy finalized.
- Leave - To keep record of leave as per policy finalized.
- Annual Allowance - To release annual allowances as per policy finalized.
- Employee Record - To update employee details as per organization Policy
- To prepare appointment letter, confirmation letter, experience letter & all employee related.
- Matter as per policy finalized with the help of Managing Director.

Authorities

- 1 Approval of customer orders.
- 2 Approval of documents as per master list of Quality System Document.
- 3 Authorized to decide corrective & preventive action.

In charge Purchase responsibilities

- Overall, in charge of purchase Raw material activities.
- Identification of resources, as applicable.
- Purchasing system - Evaluation, selection, purchasing, monitoring.
- Document & Data control system pertaining to his department.
- Corrective / Preventive action system (sub - contractor non-conformances, in particular.)
- Control of records

Planning	Date	8 APRIL 2022

6.1.2

- a) actions to address these risks and opportunities
- b) how to integrate and implement the actions into its quality management system processes

6.2.2 **Quality objectives and planning to achieve them**

6.2.1 SAHARA ROOFING TECHNO SOLUTION Establish quality objectives at relevant functions, levels and processes needed for the quality management system.

The quality objectives shall

- Be consistent with the quality policy
- Be measurable
- Take into account applicable requirements

Interested Parties	Requirements	Risks and Opportunities	Effectiveness s of actions
External Providers	Communication, Payment Terms, On Time Supply, Technology Support,	Communication Gap, Payment & Delivery terms not in written, Output Failure	Communication like Emails, Phone, Payment & delivery terms mention in PO, Documented information is
Customer	Product Quality, Delivery & service of on time, Response to complaint, Proper Communication channel	Business Loss, Reputation Down for Organization	Defined in documented information of Marketing & Sales process & Review in Management review meetings
Statutory & Regulatory Body	Organization & product related Statutory & regulatory requirements is kept	Customer is not accepted material or loss of business	Defined in documented information & Review in Management review meetings
Bankers / financiers	All product & organization related	Organization is facing the problems (funds related)	All product & organization related documents is kept
Employees	On time Payments	Work is not properly operated	On time payments issue to employees
Marketing	Competitive rates, More amenities, Prime Location,	Organization facing problems in sales, Reputation in market	Market analysis, Competent marketing team.
Purchase	Competitive rates, Good Quality material, Timely Delivery,	Organization facing Finance problems, Customer dissatisfied, Delay in project completion & Reputation in market	Market analysis, Competent Purchase team

SAHARA ROOFING TECHNO SOLUTION achieves its quality objectives

- a) What will be done?
- b) What resources will be required?
- c) Who will be responsible?
- d) When it will be completed?
- e) How the results will be evaluated?

Our Quality Objectives are as below

- We deliver the rubber product that our customers require.
- As a minimum, we shall meet the requirements of ISO 9001:2015
- We shall be certified or accredited in according to relevant standards.
- We shall provide reliable consultation support & innovative solutions.
- We shall document our quality.
- Our Employee, Vendors & contractor are our most important resource.

Planning of changes

SAHARA ROOFING TECHNO SOLUTION Determines the need for changes to the quality management system, the changes are carried out in a planned manner

- a) the purpose of the changes and their potential consequences
- b) the integrity of the quality management system
- c) the availability of resources
- d) the allocation or reallocation of responsibilities and authorities

SAHARA ROOFING TECHNO SOLUTION has determined the processes needed for the quality management system and their application throughout the organization in Process map & Interactions of processes QM-M.

SAHARA ROOFING TECHNO SOLUTION	Chapter No.	QM-B
	Page No.	1 OF 23
Quality Management System Manual	Issue No.	02
	Revision	01
Support	Date	8 APRIL 2022

SAHARA ROOFING TECHNO SOLUTION management determine, provide and maintain the infrastructure needed to achieve conformity to product requirements & in identifying the required resources the PROPRIETORSHIP play a key role based on their day-to-day interactions with respective IN CHARGE'S and employees

7.1.1 **Environment for the operation of processes**

SAHARA ROOFING TECHNO SOLUTION is determined, provide and maintain the environment necessary for the operation of its processes and to achieve conformity of products and services

A suitable environment can be a combination of human and physical factors

- a) Social (e.g., non-discriminatory, calm, non-confrontational)
- b) Psychological (e.g., stress-reducing, burnout prevention, emotionally protective)
- c) Physical (e.g., temperature, heat, humidity, light, airflow, hygiene, noise).

PROPRIETORSHIP in co-ordination with respective IN CHARGE determines and manages the work environment needed to achieve conformity to product requirement and reviewed ongoing basis.

7.1.2 **Monitoring and measuring resources**

7.1.5.1 **General**

SAHARA ROOFING TECHNO SOLUTION is determined and provide the resources needed to ensure valid and reliable results when monitoring or measuring is used to verify the conformity of products and services to requirements.

The organization shall ensure that the resources provided

- a) are suitable for the specific type of monitoring and measurement activities being Undertaken
- b) are maintained to ensure their continuing fitness for their purpose
- c) Calibrated or verified, or both, at specified intervals, or prior to use, against measurement standards traceable to international or national measurement standards; when no such standards exist, the basis used for calibration or verification shall be retained as documented information
- d) Identified in order to determine their status
- e) Safeguarded from adjustments, damage or deterioration that would invalidate the calibration status and subsequent measurement results.

SAHARA ROOFING TECHNO SOLUTION is determining the validity of previous measurement results has been adversely affected when measuring equipment is found to be unfit for its intended purpose, and shall take appropriate action as necessary.

Control of Monitoring & Measuring Equipment's

Measurement & Monitoring system is well equipped and the system has complete control over the monitoring and measuring Equipment's. The measurement methods used are evaluated to ensure that they are appropriate and reliable

- Equipment's are maintained properly and are calibrated & adjusted as and when needed. Necessary safeguards are in place to take care of adjustments that could lead to invalid results.
- Calibrations are carried out as per international standards (). Where no such standard exists, the basis used for calibration or verification are recorded. The calibration records include the last date of calibration, calibrating agency (for external agency), calibration result, and frequency of calibration as per the process and/or instrument requirement and the next calibration date. The required accuracy is identified and compared to the measurement that meets expectations.
- Identification of appropriate equipment is accomplished by tagging, labelling, numbering or by including it in a calibration/maintenance database.
- Proper control is maintained to ensure that no faulty equipment is used, the reliability of the equipment is ensured through routine maintenance and re-calibration. Equipment's are used, handled and stored under conditions that protect accuracy and prevent unauthorized adjustment.

Organizational Knowledge

SAHARA ROOFING TECHNO SOLUTION is determining the knowledge necessary for the operation of its processes and to achieve conformity of products and services.

This knowledge shall be maintained and be made available to the extent necessary

When addressing changing needs and trends, the organization shall consider its current knowledge and determine how to acquire or access any necessary additional knowledge and required updates

Organizational knowledge is specific to the organization; it is generally gained by experience. It is information that is used and shared to achieve the organization's objectives.

Organizational knowledge can be based on:

- Internal sources (e.g., intellectual property; knowledge gained from experience; lessons learned from
- failures and successful projects; capturing and sharing undocumented knowledge and experience; the results of improvements in processes, products and services);
- External sources (e.g., standards; academia; conferences; gathering knowledge from customers or external providers).

7.1 Competence

SAHARA ROOFING TECHNO SOLUTION is

- a) Determine the necessary competence of person(s) doing work under its control
That affects the Performance and effectiveness of the quality management system
- b) Ensure that these persons are competent on the basis of appropriate
Education, training, or Experience
- c) Where applicable, take actions to acquire the necessary competence, and
Evaluate the effectiveness of the actions taken.

General

7.5.1 Creating and updating

SAHARA ROOFING TECHNO SOLUTION creating and updating documented Information, the SAHARA ROOFING TECHNO SOLUTION is ensured Appropriate

- Identification and description
- Format (e.g., language, software version, graphics) and media (e.g., paper, Electronic)
- Review and approval for suitability and adequacy

SAHARA ROOFING TECHNO SOLUTION quality management system is included Quality management System documentation is established with the following approach. A four level- documented structure is followed for the operation of Quality Management System

Master Documents - Tree Diagram
QUALITY MANUAL (Standard Requirement)

PROCEDURES

PROCESS FLOW CHART, WI, QUALITY PLANS,
CHECKSHEETS, MANUFACTURING PROCESS
FLOW CHARTS

DOCUMENTED INFORMATION

Quality Manual (standard Requirement)

- 1) Defines the approach and responsibility, which includes a documented statement of quality policy & objectives etc.

Procedures

- 2) Defines what, where, when, who & why of an activity being one as stated in ISO- 9001:2015 standard.
- 3) The documented procedure activity process flow chart defines the effective planning, operation and control of processes.

WI, Quality Plans, Check sheet etc.

- 4) Defines how exactly an activity is to be done ensuring the effective planning, operation and control of processes.

Documented Information

- 5) Provides the evidence, which has to be established for all the activities, stated above which in turn Documented Information. A master list of Quality Record is maintained by respective Departments/ section heads as per the requirement of ISO 9001:2015

Control of Quality System Manual

- Proprietorship is approving the Quality Manual, procedure, WI & documented Information and its amendments.
- Management Representative / Quality In charge is responsible for preparation, review, issue & control of the manual and its amendments.
- In case any personnel ceases to be holder of manual copy for any reason, his copy number of manual will be allocated to any new holder with note in amendment list to this effect. MASTER COPY will be stamped "MASTER" on the front side of all pages in "BLUE" colour. Photo copy will be taken for all MASTER & will be "CONTROLLED" stamped in RED colour. MR/Quality in charge maintains the master copy having original signatures.

Document changes

MR/Quality in charge perceive the need for amendment to this manual based on adequacy audit report, mistake / corrections during review by any holder, system change and amendment to Reference ISO standard or any change in the organization affecting system described in this manual. Amendments to this manual are recorded in the Amendment list (After Amendment). The holders of Quality System Manual refer to amendment list before referring to respective amended sections to clearly understand details / purpose of amendment. A list indicating latest revision status of each page of this manual, whenever a page of any chapter is amended, the page and the chapter bear the latest Rev. No. The latest revision no. is indicated in the amendment sheet, and on the cover page of the Quality Manual.

Numbering Logic of Quality System Manual

The numbering logic of this quality system manual will be as described here:

- a. The numbering logic will be -QM-XX.
- b. Indicates SAHARA ROOFING TECHNO SOLUTION
- c. QM indicates Quality System Manual of ISO 9001:2015.

For Maintain Documented Information

7.5.2

Control of documented information

Documented information required by the quality management system and by this International Standard shall be controlled to ensure

- It is available and suitable for use, where and when it is needed
- It is adequately protected (e.g., from loss of confidentiality, improper use, or loss of integrity)

(Procedure for Retain Documented Information)

For the control of documented information, SAHARA ROOFING TECHNO SOLUTION is address the

Following activities, as applicable

- Distribution, access, retrieval and use Storage and preservation, including preservation of legibility Control of changes (e.g., version control) Retention and disposition
- Documented information of external origin determined by the organization to be necessary for the Planning and operation of the quality management system is identified as appropriate, and is controlled.
- Documented information retained as evidence of conformity shall be protected from unintended alterations

Operations

8.1 Operational planning and control

SAHARA ROOFING TECHNO SOLUTION is plan, implement and control the processes needed to meet the requirements for the provision of products and services, and to implement the actions in & maintained risks and opportunities related to planning maintained in operational planning control. Like bar chart for planning.

- a) Determining the requirements for the products and services
- b) Establishing criteria for
 - 1) The processes
 - 2) The acceptance of products and services
- c) Determining the resources needed to achieve conformity to the product and service Requirements
- d) Implementing control of the processes in accordance with the criteria
- e) Determining, maintaining and retaining documented information to the extent Necessary.
 - 1) To have confidence that the processes have been carried out as planned
 - 2) To demonstrate the conformity of products and services to their requirements

SAHARA ROOFING TECHNO SOLUTION is control planned changes and reviews the consequences of unintended changes, taking action to mitigate any adverse effects, as necessary.

SAHARA ROOFING TECHNO SOLUTION is ensured that outsourced processes are controlled refer QM-0

8.2 **Requirements for products and services**

8.3 **Customer communication**

Communication with customers is include

- a) Providing information relating to products and services
- b) Handling enquiries, contracts or orders, including changes

SAHARA ROOFING TECHNO SOLUTION is ensured that

- The requirements for the products and services are defined, including
- Any applicable statutory and regulatory requirements
- Those considered necessary by the organization
- The organization can meet the claims for the products and services it offers

At present the marketing activities are looked after **DIRECTOR MRS. SUVARNA SANTOSH KANGLE** is actively involved in the determination of customer requirements and for each enquiry he determines the Requirements related to the product in contract review form with respect to requirements specified by customer, including the requirements for delivery and post-delivery activities. Requirements not stated by customer but necessary for specific or intended use (where known) Statutory and Regulatory requirements related to the product any additional requirements determined by the organization.

8.2.1 Review of the requirements for products and services

SAHARA ROOFING TECHNO SOLUTION is ensuring that it has the ability to meet the requirements for products and services to be offered to Customers. SAHARA ROOFING TECHNO SOLUTION is conducting a review before committing to supply products and services to a customer, to include

- a) Requirements specified by the customer, including the requirements for Delivery and post-delivery activities
- b) Requirements not stated by the customer, but necessary for the specified or Intended use, when known
- c) Requirements specified by the organization

SAHARA ROOFING TECHNO SOLUTION is ensuring that contract or order requirements differing from those previously defined are resolved.

The customer's requirements are confirmed by SAHARA ROOFING TECHNO SOLUTION is before acceptance, when the customer does not provide a documented statement of their requirements. SAHARA ROOFING TECHNO SOLUTION is retained documented information, as applicable

8.3.1 **Design and development planning**

SAHARA ROOFING TECHNO SOLUTION is considered in determining the stages and controls for design and development, including

- a) The nature, duration and complexity of the design and development activities
- b) The required process stages, including applicable design and development reviews
- c) The required design and development verification and validation activities
- d) The responsibilities and authorities involved in the design and development process
- e) The internal and external resource needs for the design and development of Products and services
- f) The need to control interfaces between persons involved in the design and Development process
- g) The need for involvement of customers and users in the design and development Process
- h) The requirements for subsequent provision of products and services
- i) The level of control expected for the design and development process by customers and other relevant interested parties

The documented information needed to demonstrate that design and development requirements have been met.

a) **Control of externally provided processes, products and services (Purchase)**

8.4.1 **General**

SAHARA ROOFING TECHNO SOLUTION is ensured that externally provided processes, products and services conform to requirements, SAHARA ROOFING TECHNO SOLUTION is determining the controls to be applied to externally provided processes, products and services when

- a) Products and services from external providers are intended for incorporation into the organization's own products and services.
- b) Products and services are provided directly to the customer(s) by external providers on behalf of the organization.
- c) A process, or part of a process, is provided by an external provider as a result of a decision by the organization.

SAHARA ROOFING TECHNO SOLUTION is determined and applies criteria for the evaluation, selection, monitoring of performance, and re-evaluation of external providers, based on their ability to provide processes or products and services in accordance with requirements. The organization shall retain documented information of these activities and any necessary actions arising from the evaluations.

IN CHARGE PUR ensures that the purchased products are procured from Approved sources only and which conforms to specified purchase requirement. This is done as per business process flow for PROCUREMENT. The type and control to be exercised on supplier, based on the effect of the purchased product on the process/final product, is defined in the approved Supplier list.

IN CHARGE PUR evaluates and select supplier based on their ability to supply product in accordance with the requirements of the organization. Criteria for selection, evaluation and re-evaluation are described and depicted in Business Process Flow chart.

- Selection, Evaluation and approval of supplier's material product.
- Periodical evaluation of Supplier
- Approved Supplier List will be maintained by the IN-CHARGE PUR and also the records of their periodical performance.

Type and extent of control

SAHARA ROOFING TECHNO SOLUTION is ensured that externally provided processes, products and services do not adversely affect the organization's ability to consistently deliver conforming products and services to its customers.

SAHARA ROOFING TECHNO SOLUTION is

- Ensure that externally provided processes remain within the control of its quality management system
- Define both the controls that it intends to apply to an external provider and those it intends to apply to the resulting output
- Take into consideration
- The potential impact of the externally provided processes, products and services on the organization's ability to consistently meet customer and applicable statutory and regulatory requirements
- The effectiveness of the controls applied by the external provider
- Determine the verification, or other activities, necessary to ensure that the externally provided processes, products and services meet requirements.

8.4.2 Information for external providers

SAHARA ROOFING TECHNO SOLUTION is ensuring the adequacy of requirements prior to their communication to the external provider SAHARA ROOFING TECHNO SOLUTION is communicated to external providers its requirements for

- The processes, products and services to be provided
- The approval of Products and services
- Methods, processes and equipment
- The release of products and services
- Competence, including any required qualification of persons
- The external providers' interactions with the organization
- Control and monitoring of the external providers' performance to be applied by the organization.
- Verification or validation activities that the organization, or its customer, intends to perform at the external providers' premises.

The Purchase order is describing the product to be purchased including

- Requirement of Material Test Certificate / Product Dimensional report / PPAP such as Control Plan / Binding wire Process Flow Chart / Process Sheets / Process Capability studies etc.
- Requirements for qualification of personnel
- QMS requirements.

PO will be reviewed for adequacy of the specified requirement prior to release by IN CHARGE PUR & M.R. The Purchase order released to the supplier indicates the intended verification arrangements and method of product release, whenever SAHARA ROOFING TECHNO SOLUTION or its customer intends to perform such verification at external provider's end.

Incoming Product Quality

The control / Inspection plan for incoming be based on the control exercised on the external providers -

- a. Inspection and / or testing on sampling method. The sampling size should be decided based on past performance of the supplier.
- b. Inspection at Sub-contractor's premises with / without system audit.
- c. Quality assurance certificate or test report from supplier.
- d. Part evaluation by accredited laboratories.
- e. Receipt and evaluation of statistical data.
- f. Any of above method or Combination of any two or more from above.

Supplier Monitoring

External providers performance monitoring through the following indicators, & will be carried out by IN CHARGE PUR as described in Procedure for Purchase Delivered Product Quality.

- Delivery Performance.
- Customer disruptions including field Returns.
- Customer notification Related to quality or delivery Issues
- Premium freight.

SAHARA ROOFING TECHNO SOLUTION is Promote monitoring of the performance of manufacturing Processes of the external providers as part of supplier development.

8.5.1 Control of Sales and service provision

SAHARA ROOFING TECHNO SOLUTION is implemented Sales and service provision under controlled conditions. Controlled conditions are including, as Applicable.

- The availability of documented information that defines
- The characteristics of the sales to be produced, the services to be provided, or the activities to be performed.
- The results to be achieved
- The availability and use of suitable monitoring and measuring resources
- The implementation of monitoring and measurement activities at appropriate stages to verify that criteria for control of processes or outputs, and acceptance criteria for services, have been met
- The use of suitable infrastructure and environment for the operation of processes
- The appointment of competent persons, including any required qualification
- The validation, and periodic revalidation, of the ability to achieve planned results of the processes for sales and service provision, where the resulting output cannot be verified by subsequent monitoring or measurement;
- The implementation of actions to prevent human error
- The implementation of release, delivery and post-delivery activities.

Sales In Charge shall plan the sales as per and respective Section In charge carry out process under controlled condition as defined in Process Flow in respective process procedures Controlled conditions shall include: -

- a) Sales plans for all processes which describes the characteristics of the product and process flow chart for sequence of operations
- b) Work Instructions made available at all work stations.
- c) Use of appropriate equipment for a particular process/operation
- d) Use of calibrated monitoring and measuring devices
- e) In process inspection/verification
- f) Verification of acceptance criteria

Sales & Service Plan

Sales & Service plan for all stages of installation, including receipt of material sample, pilot & regular sales shall be used. These sales plans at each stage may be amendments of sales plans of earlier stage.

As described above, Marketing shall be involved in preparation of sales plans where required by customer sales Plans will be submitted to customer for approval.

- The sales plan shall
- list the controls used for the manufacturing processes
- Include methods for monitoring of control exercised over special
- Characteristics defined by both the customer and the organization.
- Include the customer required information, if any

The sales & service plans are live documents and are reviewed and updated when change to the original product or process occurs.

Work Instructions

Respective IN CHARGE prepares Work Instructions for all operations / process activities and for all employees having responsibilities under them. These instructions are made accessible for use at the work station& are prepared based on trial run result and old documents of similar product at the time of job induction into sales and will be reviewed for applicable changes in event of sales Plan change(s).

Preventive Maintenance

IN CHARGE MNT maintains a list of all machines / equipment used in sales and designated key process equipment in the list. A plan for preventive maintenance for this key equipment shall be developed & implemented to ensure continuing process capability. This plan shall be based on the available data from manufacturer's recommendations, previous break down and preventive history, extent of usage, and rate of wear and tear etc., based on these details appropriate predictive techniques are used.

Validation of processes for sales and service Provision

All processes are validated before the start of the sales through set up approval and First Five Piece Inspection.

The above processes are controlled and continually monitored through documented work instructions, process qualifications, set up approval and worker qualification, as Applicable to ensure that the specified requirements are met.

Appropriate records are maintained by All IN CHARGE to demonstrate the control of these processes and equipment. Records of personnel qualifications and re-qualifications are maintained by All IN CHARGE Stipulate workmanship standards to the greatest practicable extent, where appropriate, by means of written standards, representative samples or display boards. Ensure Handling, Storing and transporting within the sales shop are carried to protect all materials / products. The details of process controls are described in respective department procedures.

8.5.2 Identification and traceability

SAHARA ROOFING TECHNO SOLUTION is use suitable means to identify outputs when it is necessary to ensure the conformity of products and services

SAHARA ROOFING TECHNO SOLUTION is identifying the status of outputs with respect to monitoring and measurement requirements throughout sales and service provision SAHARA ROOFING TECHNO SOLUTION is control the unique identification of the outputs when traceability is a requirement, and shall retain the documented information necessary to enable traceability.

All material is identified including inspection and test status in appropriate manner (paint, punch mark, labels, stickers and tagging etc.) from receipts at stores through various stages of sales. The final product is kept on trolleys & transferred to Finished Goods area before delivery to customer as detailed in work procedures for storage, packing & dispatch procedure.

Traceability is provided, if required by customer or decided for some products by SAHARA ROOFING TECHNO SOLUTION to identify sales & Services products by providing punch mark / tag / batch code. For such products proper records are maintained also the main packages are traceable through Bar code system.

8.5.3 Property belonging to customers or external providers

SAHARA ROOFING TECHNO SOLUTION is exercise care with property belonging to customers or external Providers while it is under the organization's control or being used by the organization

SAHARA ROOFING TECHNO SOLUTION is identified, verify, protect and safeguard customers 'or external providers' property provided for use or incorporation into the products and services.

When the property of a customer or external provider is lost, damaged or otherwise found to be Unsuitable for use, the organization shall report this to the customer or external provider and retain documented information on what has occurred.

Any arrangement of Customer Supplied raw materials, components, tooling, returnable packaging, measuring instruments etc., are identified during the contract review by CFT/ IN CHARGE MKT and communicated to the people concerned.

All such products are uniquely identified after proper verification and properly stored and maintained. Any such product that is lost damaged or is otherwise unsuitable for use shall be Recorded and reported to the Customer-by-customer representative & IN CHARGE Marketing.
